

ALDAK

passive lumbar exoskeleton

SUPPORTS
5-15KG

EASY
MAINTENANCE

WEIGHT:
3,5KG

Remedies musculoskeletal disorders
and increases performance.

CYBER
HUMAN SYSTEMS

ALDAK

Provides assistance to lumbar movement by means of an **adjustable assistance** system.

SET IT UP IN 1 MINUTE WITHOUT EXTERNAL ASSISTANCE

It helps the operator to lift heavy loads, to support demanding postures or to perform repetitive lumbar movements.

The level of assistance is easily adjusted independently for each side.
